

# eGlu Gate Controller (GC)

Gate Controller lets you control your motorized gate. The controller is connected in parallel to the manual gate open/close switch point. The Gate Controller has 3 relay outputs which provides a momentary pulse.

## Requirements

- eGlu HUB
- eGlu APP for iOS or Android

## Technical Details

| Parameter                | Details             |
|--------------------------|---------------------|
| Power Input              | 220-240V AC / 50 Hz |
| Maximum Contact Voltage: | 220V                |
| Maximum Load             | 3/3/3 Ampere        |
| Operating Temperature    | 0°C to 45°C         |
| Wireless Protocol        | WiZN's Glu™         |
| Dimensions               | 70 X 58 X 17.5 mm   |
| Weight                   | 65 grams            |
| Color                    | White               |

## Manufacturer Information

- Model no: **EGGC02R**
- SKU no: **EG-010-2-01-1-R**
- Warranty: One year limited warranty

## What's in the box

- eGlu Gate Controller
- Quick User Guide
